<u>DUTIES AND RESPONSIBILITIES:</u> Performs procedures and examinations in hospitals and clinics under the direction of radiologists and other medical officers to produce radiographic studies used in medical diagnosis and treatment. They receive and interpret requests of instructions for Radiologic procedures. Sets up X-ray rooms, assuring that needed accessory equipment is ready. Place the patient in the positions to obtain the views requested. Refer to guidelines to calculate the correct exposure, factors of time, distance, kilovolts, and millimperage and operate the radiographic equipment in order that the specified portion of the body extremities receives the correct calculated exposure. Assist radiologists during fluoroscopic and special procedures. Utmost care is taken at all times to minimize the patient's exposure

to radiation by using proper films, filter, screens, etc., by restricting the beam through use of cones, cylinders, or diaphragms, by using optimum exposure setting. Recognize and reports malfunctioning equipment and perform clerical duties such as recording radiographic exposures on the patient's charts, identifying equipment, recording technical factors and materials used in studies. May develop X-ray film.

Mammography: Performs a variety of mammographic examinations. Responsible for image quality, and patient positioning, compression, image production and film processing. Responsible for specific quality control procedures as dictated by the Federal Drug Administration (FDA) and the American College of Radiology (ACR). Independently makes standard examinations. Confers with radiologists to establish requirements of nonstandard examinations and determines technical factors, positioning, and number of images to satisfy the requirements. Maintains records of patients treated, examinations performed, and results sent. Advises patient and/or referring physician of results of examination and provides them with a copy of the Diagnostic Imaging report. Makes minor adjustments to equipment such as setting up grids and filters.

NOTE: Public Law 97-35 requires that persons who administer Radiologic procedures meet the credentialing standards which are set forth in 42 CFR, Part 75. Essentially, they must (1) have successfully completed an education program which meets or exceeds the standards described on that regulation and is accredited by an organization recognized by the Department of Education, and (2) be certified as radiographers in their field. The following meets these requirements.

- 1. Persons employed by the Federal Government as radiologic personnel prior to the effective date of the regulation (January 13, 1986) who show evidence of current or fully satisfactory performance or certification of such from a licensed practitioner such as a doctor of medicine, osteopathy, dentistry, podiatry, or chiropractic who prescribes radiologic procedures to others.
- 2. Persons first employed by the Federal Government as radiologic personnel after the effective date of the regulation who (a) received training from institutions in a State or foreign jurisdiction that did not accredit training in that particular field at the time of graduation, or (b) practiced in a State or foreign jurisdiction that did not license that particular field or did not allow special eligibility to take a licensure examination for those who did not allow special eligibility to take a licensure examination for those who did not graduate from an accredited educational program, provided that such persons show evidence of training, experience and competence as determined by OPM or the employing agency.

All applicants, however, must meet the requirements below.

QUALIFICATION REQUIREMENT: Except for the substitution of education as provided in the Operating Manual for Qualification Standards, applicants must meet the following basic requirements in addition to the following types of experience, in the amounts indicated.

<u>GENERAL EXPERIENCE:</u> Any type of work that demonstrates the applicant's ability to perform the work of the position, or experience that provided a familiarity with the subject matter or processes of the broad subject area of the occupation.

<u>SPECIALIZED EXPERIENCE:</u> (for positions at GS-4 and above): Experience in the operation of diagnostic radiology equipment under the direction of radiologists or other medical officers to produce radiographic studies used in medical diagnosis and treatment. **OR**

<u>EDUCATION AND TRAINING:</u> Qualifying educational programs for radiography and radiation therapy technology are available in accredited colleges, universities, hospitals, medical schools, or postsecondary technical or vocational schools. Education or training from programs based in hospitals must have been from those hospitals that were accredited at the time of the education or training by the Joint Commission on Accreditation of Hospitals or by the American Osteopathic Association.

NOTE: Graduate education or an internship meets the specialized experience required above GS-5 *only* in those instances where it is directly related to the work of the position. One full year of graduate education meets the requirement for GS-7. Two full years of graduate education or a master's degree meets the requirements for GS-9. One year of full-time graduate education is considered to be the number of credit hours that the school attended has determined to represent 1 year of full-time study. If that information cannot be obtained from the school, 18 semester hours should be considered as satisfying the 1 year of full-time study requirement. Part-time graduate education is creditable in accordance with its relationship to a year of full-time study at the school attended.

GRADE	EDUCATION	OR	GENERAL EXPERIENCE	SPECIALIZED EXPERIENCE
GS-4	2 years above high school with courses related to the occupation, if required or Successful completion of a full-time training course of at least 12 months' duration in a post-high school radiography program	OR	6 months	6 months
GS-5	4-year course of study above high school leading to a bachelor's degree with courses related to the occupation, if required or Successful completion of a full-time training course of at least 24 months' duration in a post-high school radiography program *	OR	None	1 year equivalent to at least GS-4
GS-6 and above	See the NOTE under the Education section	OR	None	1 year equivalent to at least next lower grade level

^{*} Successful completion of a course for medical radiologic technicians in the Armed Forces is qualifying on a month-for-month basis up to the 1 year of specialized experience required for GS-5.

Equivalent combinations of education and experience are qualifying for all grade levels and positions for which both education and experience are acceptable.

<u>SUPERVISORY POSITIONS</u>: For supervisory positions, the Qualification Standard for Supervisory Positions in part IV of the Qualifications Standards Operating Manual must be used in conjunction with this standard.

DRIVER'S LICENSE: For certain positions, applicants may be required to have a valid state driver's license.

LENGTH OF ELIGIBILITY: Your application will remain active for one year from the date you are rated eligible. You will be removed from consideration due to acceptance of a permanent position or for other reasons. You will not be removed from the list of eligibles if you accept a temporary position unless you submit notice of your non-interest in other positions. Your eligibility may be extended for an additional one-year period.

EMPLOYMENT INTERVIEWS: Applicants may be required to demonstrate in a pre-employment interview that they possess the personal qualifications necessary for successful performance.

UNPAID AND VOLUNTEER EXPERIENCE: The experience requirements may be satisfied with pertinent unpaid or volunteer work.

BASIS OF RATING: There is no written test. Candidates will be rated on a scale of 70 to 100, based on the extent and quality of your education, experience, and training as they relate to the duties of the position and grade your applying for. Your rating will be based on the information on your application and on any additional information obtained by this office. You will be rated for all grade levels for which you qualify and indicate you will accept. Indian preference candidates will be rated against the Preston Standards.

RANKING FACTORS: Applicants who meet the qualification requirements described above will be further evaluates to determine the extent to which their education, work related experience, training, awards, professional recognition and supervisory appraisals indicate they possess or have the potential to acquire knowledge, skills, abilities, and personal characteristics, (KSAP's) required to perform the duties and responsibilities described above.

KSAP'S SUPPLEMENTAL QUESTIONNAIRE

Applicants are encouraged to address the following KSAP's on a separate sheet of paper attached to their application.

The KSAP's will be the basis for determining which applicants are best qualified.

Diagnostic Radiologic Technician/Technologist:

- 1. Knowledge of radiological procedures and radiation protection standards to include proper patient positioning and diagnostic technique. Please cite examples and describe.
- 2. Ability to interpret and use the sensitometer, densitometer, stepwedge, spintop, grid cassette and Wisconsin cassette. Please cite examples and describe.
